Concours d'accès à la formation doctorale de 3<sup>ème</sup> cycle LMD 2022 -2023

Filière de langue anglaise

EPREUVE DE SPECIALITE : Language Sciences

Sujet n° 3

Durée: 02 H 00 mn

For Labov (2008), investigation begins with the simple act of noticing a variation – that there are two alternative ways of saying the same thing. This made him, among others, demonstrate that language use is highly structured and not random. Discuss.

EPREUVE DE SPECIALITE : Didactics

Sujet n° 2

Durée: 02 H 00 mn

Didactics and pedagogy are viewed as two teaching concepts that are distinct but not distant. The former is teacher centered and theorises a teaching approach, whereas the latter is learner centered and articulates it.

*Explain this statement with regard to the current Algerian educational system.*
